

The 2030 Vision represents the beginning of an ongoing commitment by the City of Sydney to achieve targets set out for a Green, Global and Connected City.

Establishing partnerships for change

The City of Sydney has a critical role in implementing the Vision. However, the Vision can only be achieved through partnerships for change with community, business and government.

Aligning Council’s Corporate Plan

The Corporate Plan 2006-2009 is the City of Sydney’s management plan. It identifies priority projects with targets and key performance indicators to deliver the long-term goals and outcomes specified under key focus areas.

The operational units within the City of Sydney develop strategies to address specific issues over a five year time frame. This should be extended to identify longer term capital and operating obligations, and revenue implications. As corporate and unit plans are reviewed, they will align with the of Sustainable Sydney 2030.

Monitoring outcomes and reviewing directions

Ongoing monitoring programs will track implementation and outcomes, supported by a strong research program. A system of monitoring progress, including contributions by other levels of government, to the achievements of the 10 Sustainable Sydney 2030 Vision targets will be established.

Continued opportunities for stakeholder engagement will be established to implement the directions of the 2030 Vision.

Increased pedestrian movement is a primary goal

10 TARGETS FOR 2030

A combination of incremental and significant ‘step changes’ are required.

- **TARGET 1**  
By 2030, the City will reduce greenhouse gas emissions by 50 per cent compared to 1990 levels, and by 70 per cent compared to 1990 levels by 2050.
- **TARGET 2**  
By 2030, the City will have the capacity to meet up to 100 per cent of electricity demand by local electricity generation and 10 per cent of water supply by local water capture.
- **TARGET 3**  
By 2030, there will be at least 138,000 dwellings, 48,000 additional dwellings in the City catering for an increased diversity of household types, including a greater share of families.
- **TARGET 4**  
By 2030, 7.5 per cent of all City housing will be social housing, and 7.5 per cent will be affordable housing, delivered by not-for-profit or other providers.
- **TARGET 5**  
By 2030, the City will contain at least 465,000 jobs including 97,000 additional jobs with an increased share in finance, advanced business services, education, creative industries and tourism sectors.
- **TARGET 6**  
By 2030, the use of public transport for travel to work by City Centre workers will increase to 80 per cent and the use of non-private vehicles by City residents for work trips will increase to 80 per cent.
- **TARGET 7**  
By 2030, at least 10 per cent of trips made in the City will be made by bicycle and 50 per cent by pedestrian movement.
- **TARGET 8**  
By 2030, every resident will be within a 10 minute (800m) walk to fresh food markets, childcare, health services and leisure, social, learning and cultural infrastructure.
- **TARGET 9**  
By 2030, every resident in the City of Sydney will be within a three minute walk (250m) of continuous green links that connect to the Harbour Foreshore, Harbour Parklands, Moore and Centennial Parks or Sydney Park.
- **TARGET 10**  
By 2030, the level of community cohesion and social interaction will have increased as measured by more than 45 per cent of people believing most people be can be trusted.
